

### MIRACLE SAVES STUNT FLYER AT NATIONAL RACES

Crashes While Flying Upside Down, Steps From Plane

Cleveland, Sept. 4.—(AP)—By all the ramifying rules of gravity, Count Otto Hagenburg of Germany, a nerveless gentleman who does tricks with airplanes, had no right today to be around begging for a machine to take aloft.

The count crashed late yesterday. It was one of those rare accidents when the packed stands at the national air races turn their collective head away and close its ears to the shriek of the ambulance, certain that death has called off its hounds. But the dust had not settled around his ship when he crawled out and waved to the crowd.

Bulle as a death-defying acrobat, the man who won the trick flying contest in the international meet at Zurich, Switzerland, last July had just completed a half-loop and was swooping down completed inverted when he struck.

Fuller Appeared

Flying a stripped-down Seversky pursuit ship, Frank Fuller, San Francisco sportsman, streaked in from Burbank in 7 hours and 55 minutes and then roared off to Bendix, N. J., in 9 hours and 35 minutes to post two new records for the event.

His average speed of 258 miles an hour was 54 miles an hour better than that set by two Italian airmen, Samuel Cupilli and Amadeo Paradisi, over a course some 3,600 miles long in the last great international speed contest.

The Italians flew a triangular course, Istres-Damascus-Paris. Fuller's course to Cleveland was 2,042 miles long.

In beating the five-year-old record of Jimmy Hatzlip by 24 minutes, Burbank to Cleveland, and smashing Roscoe Turner's Burbank-Bendix mark of 10 hours, 2 minutes, 28 seconds, Fuller collected \$13,000 in prize money. Fuller's time from Burbank to Bendix field was 9 hours 35 minutes.

The lone woman entrant in the Bendix, Jacqueline Cochran, of Indianapolis, claimed \$2,500 for being the first (and only) woman to finish—and Earl Ortman, of Long Beach, Calif., got \$5,000 for second place.

"Strike" Is Settled

Thin, temperamental racing planes, laboratories for tomorrow's developments in commercial aviation, whipped around a closed course at speeds of 275 miles an hour and more today in qualifying trials for the big money events. At the same time a threatened "strike" of government fliers was settled.

S. J. Wittman, Oshkosh, Wis., turned up 276 miles an hour in his living powerhouse in four turns around the 10-mile, pylon-marked course to assure the entry of his Wittman special in tomorrow's 150-mile Greve Trophy race, carrying \$15,000 in prize money.

Other entries in today's qualifying races included R. A. Kling, Lemont, Ill., in a Polikoff Special, which he cracked up last year.

Today was "Army Day", marked by the arrival in the afternoon of nine of the army's new Boeing bombers dubbed the "Flying Fortresses" from Langley Field, Va.

It was "Army Day", too, for 51 Army, Navy and Marine fliers also.

### Young Vandals

Chicago, Sept. 4.—(AP)—Six small boys, including twin brothers, were rounded up by police on charges of vandalism. Police Lieut. Thomas McLaughlin accused them of mutilating reeks and blackboards, throwing in on the walls and tearing pictures maps and clocks off the walls. The lieutenant said the boys told him they didn't like the principal.

### Kidnaped Wife Returns Home in Highly Nervous Condition Today

Elkhorn, Wis., Sept. 4.—(AP)—Mrs. Olive Borcia told state and federal authorities today she was kidnaped Thursday night in her abductor's mistaken belief her book-maker-husband easily could raise a large sum of money to ransom her.

When she convinced them her husband, John Borcia of Chicago, was a small operator, they returned her unharmed to the summer home of her mother at 2 a. m. today.

Asked by Sheriff Joseph Dorr if she knew whether \$5,000 ransom had been paid, Mrs. Borcia replied she was convinced there was none because her kidnappers did not leave her more than a few minutes during the 26 or 27 hours she was held captive.

After hearing the attractive, 20-year-old woman's story, Dorr and a federal bureau of investigation operative took her to the kidnap

### Toll of Time

Madison, Wis., Sept. 4.—(AP)—Civil war soldiers totalling probably not more than 200—were assembled in Madison with five affiliated groups today for the 71st national encampment of the Grand Army of the Republic.

Of the thousands who fought to save the Union in the war of 1861-65 less than one full company of veterans had registered for the meeting beginning tomorrow and ending Friday. Between 20,000 and 3,000 members of affiliated groups were expected.

The oldest veteran who planned to attend was Dr. H. Patterson of East St. Louis, who will be 99 on October 7.

### BURKE SUGGESTS GARNER BE MADE 1940 PRESIDENT

Washington, Sept. 4.—(AP)—Senator Burke (D-Neb.), named Vice President Garner today as his choice for the Democratic presidential nomination in 1940.

Burke, one of the leaders of the Senate fight against President Roosevelt's Supreme Court bill, said if Garner were "not available" he would want another candidate with "the same qualities of hard common sense."

Burke pledged "full support" for a Senate resolution to express opposition to a third term for President Roosevelt. Senator Holt (D-W.Va.) has announced he would submit such a resolution at the next session of Congress.

"I am even going farther," Burke said, "and work for a constitutional amendment limiting the president's term to a single period of six years."

He added, however, that he did not believe President Roosevelt desired a third term.

The Nebraska said he favored a resolution against a third term to counteract forces that might seek to induce the president to run again despite his personal inclinations.

### Custodian of Church Is Found Murdered

Steuenville, O., Sept. 4.—(AP)—Fingerprints on a blood-stained iron poker provided police with a clue today in the fatal beating of Reuben Mirvis, 63-year-old caretaker of the Bnai Israel synagogue.

The body of the former Weirton, W. Va., merchant was found last night in a rear room of the church by Rabbi Samuel Stampfer as he entered to prepare for Sabbath prayers.

Chief of Police Ross Cunningham said Mirvis had been beaten on the head with the poker and estimated he had been dead two hours before Rabbi Stampfer discovered the body.

The Rabbi said he believed a tramp or a robber may have killed Mirvis, adding that the caretaker frequently fed tramps who stopped at the church.

### 1 Killed, 4 Hurt In Accident Near Mendota Today

Mendota, Ill., Sept. 4.—(AP)—Michael Gottstalt, 74, of Sheboygan, Wis., was killed and four other persons were injured today when their automobile was forced off a road three miles south of here.

J. E. Schaeffer of Madison, Wis., driver of the car, suffered a cut on his head and bruises; his wife, a wrenched neck, cuts and bruises; his daughter, Betty Jane, dislocated hip and cuts, and Miss Marie Long of Milwaukee, neck bruises and sprained wrist.

All were taken to a hospital here for treatment. Gottstalt's head was crushed.

Police said a milk truck forced the car from the road when it turned into a farm road.

### "NO LEFT TURN" RULE OPPOSED BY MERCHANTS

East First Street Business Men Voice Objections To Plan

Business interests represented along East First street joined forces in objecting to the new "no left hand turn" rule now in force at Galena avenue and First street. Every merchant present voiced his objection to the measure and urged the early repeal of the measure. No opposition developed when members of the council asked to be permitted to continue with the experimental measure until next Friday, when, if dissatisfaction continues to exist, the merchants were assured that the ordinance would promptly be rescinded.

Chester Barriage was the first of the First street business men to express his attitude toward the new "no left turn" measure, which he classified as being an injustice to the business men on East First street.

"We feel that we at least were entitled to a hearing on a measure of such importance to our businesses. It is my opinion that the hasty action, which I was given to understand would not take place, was unwarranted and it is my further opinion that this ordinance will not remedy the condition for which it was intended, but on the other hand will work a severe hardship upon business on East First street."

C. C. Hintz, photographer, told the council that east First street business interests appreciated all that the commission has done and is doing to eliminate traffic congestion in the downtown section, but voiced his objection to the new ordinance as not solving the problem. He suggested that the council establish a system of parking at each of the four intersecting streets, which would move parking back a distance of about 20 feet, and thus permit left hand turns with safety.

A. N. Knick, florist, told the council that the new order was tending to slow up traffic on Galena avenue and while probably relieving traffic congestion at First street and Galena avenue, was causing congestion both at River and Second streets. He also informed the council of the unfairness to business interests on East First street and declared the ordinance to be an unjust measure.

Thomas Burke, owner of the Blackhawk hotel, objected to the ordinance as being damaging to business.

George W. Burch of Netz & Co. told the commission that the ordinance was detrimental to business east of Galena avenue and that all

### Lewis Rebukes Roosevelt As Fair Weather Friend Of Labor; May Desert Him

Hints Formation of Third Party in 1940 Campaign

Washington, Sept. 4.—(AP)—John L. Lewis, rebuking President Roosevelt as a fair-weather friend of labor, served notice on the administration to look elsewhere for its political allies.

Lewis, reporting last night in a radio speech of bristling tone that the C. I. O. has enrolled 3,718,000 workers, left up to the New Deal high command the question of deciding whether the Democratic party and the C. I. O. shall tread separate paths.

The C. I. O. chief castigated "those who profess to be the keepers of the public conscience" for failure to criticize the "murder of unarmed men" in the recent steel strikes.

He added as a warning: "Labor next year cannot avoid the necessity of a political ally of the work and deeds of its so-called friends and its political beneficiaries. It must determine who are its friends in the arena of politics as elsewhere."

He let fly this barb at President Roosevelt.

"It ill behooves one who has sipped at labor's table and who has been sheltered in labor's house to curse with equal fervor and ineptitude both labor and its adversaries when they become locked in deadly embrace."

Points Barb At F. D. R.

Washington observers regarded this as obviously a reply to the "plague on both your house" which President Roosevelt bespoke for extremists on both side in the "little steel" strike.

They interpreted it further as a strong statement of Lewis' belief that the administration had "sipped at labor's table" by virtue of a \$500,000 campaign contribution last year, the largest received by the Democratic national committee.

The shelter in "labor's house" they translated as a reference to the widespread support given the President last November when millions of unionists cast their ballots for Mr. Roosevelt.

Lewis did not go into details as to his intentions involving what he said "chant their praises of democracy but who lose no chance to drive their knives into labor's defenseless back."

He did, however, suggest that it would be to the advantage of farmers and workers to wage their battles together, and this lent new emphasis to predictions Lewis may seek to form a third party in the 1940 elections.

Single Out Foes

He singled out for special treatment Mayor Kelly of Chicago, Governor Davey of Ohio and those congressmen who blocked action on a wage and hour bill at the past session.

Shortly after the killing of steel workers in South Chicago, Lewis said, "Kelly came to Washington looking for political patronage. The patronage was forthcoming and Kelly must believe that the killing of the strikers is no liability in partisan politics."

Of Governor Davey, who called out the National Guard in Ohio's steel strike, Lewis said: "Meanwhile, the steel puppet Davey is still governor of Ohio, but not for long I think, not for long. The people of Ohio may be relied upon to mete out political justice."

New 8 Hour Law Also Applies to Women in Offices

Springfield, Ill., Sept. 4.—(AP)—Attorney General Otto Kerner ruled today the new women's eight-hour law applies to female office workers in all industries enumerated in the act.

Because of its wording questions had arisen as to whether longer hours were authorized in offices of industries other than telephone and telegraph establishments and public and private institutions.

Kerner held the legislature intended to have the eight-hour limitation apply generally to office workers. The opinion, given State's Attorney Jefferson Lewis, of Menard county, ruled the newspaper publishers are not subject to the eight-hour law.

### Mayor Injured Trying to Stop Row Between Posse and Negro

Dublin, Ga., Sept. 4.—(AP)—John W. Underwood, youthful mayor of Mt. Vernon, Ga., lay seriously wounded today because he tried to intervene between an aroused posse and an aged Negro suspected of harboring a fugitive in a rape case.

The Negro, 75 year old Will Kirby, was killed and Underwood and a posseman were struck by stray bullets when gunfire disrupted the mayor's effort "to calm things down" yesterday at Kirby's farm home near Mt. Vernon.

Versions of the shooting differed. Special Deputy Sheriff Ennis Brady said Kirby had argued but had not fired a gun. Others said the Negro fired a weapon.

Underwood was shot in the back and Ralph Grinstead, posseman, was wounded in the arm.

Today an unofficial posse of several hundred Montgomery county residents continued searching a dense swamp north of Mt. Vernon for the fugitive Negro, named in a state warrant as Buddy Sharpe.

County Prosecutor L. C. Underwood, father of the 25 year old mayor, said his son was wounded while "trying to calm things down."

Prosecutor Underwood said men had been roaming the country "in an ugly mood" since a white farm woman was attacked in her home Saturday night.

"We'd been afraid of a lynching ever since," he said.

### In No Danger

Salamanca, Sept. 4.—(AP)—Harold E. Dahl, the Champaign, Ill., adventure flier jailed by Spanish insurgents, is in no danger of death by execution, said a spokesman close to the insurgent regime today.

Dahl, fighting for the Spanish government, was shot down behind insurgent lines last May and has since been held under arrest. It was explained today charges against him, for opposing the insurgent army, do not entail the extreme penalty. Definitely, the informant said, Dahl has not been condemned to death.

### THREE BURNED TO DEATH, SIX HURT IN YACHT BLAZE

San Pedro, Calif., Sept. 4.—(AP)—Three small girls were burned to death early today in a yacht fire and six adults, rescued by coast guardsmen, were severely burned.

The dead were Viola Timberlake, 11, her sister, Vivian, 9, and Elise Teague, 11.

Rescued were Mr. and Mrs. A. E. Timberlake, owners of the craft, Mr. and Mrs. Edward A. Teague, and Mr. and Mrs. Frank Burg, all of Los Angeles.

The vessel, the 50-foot Truant, left after midnight for a week-end at Catalina Island, 30 miles distant. About four miles off the breakwater, Burg told coast guardsmen, the engine exploded and threw gasoline over the entire boat. The yacht quickly burst into flames.

The children and Mrs. Burg were in the cabin asleep, the other women were in the cockpit, also asleep, and the men were awake.

Flames enveloped the cabin inside and out.

Only 23 minutes after the explosion, the coast guard cutter Aurora arrived and after extinguishing the blaze rescued the adults, who were clinging to a skiff.

### Final 50-Target Lap Of National Skeet Meet Today

Detroit, Mich., Sept. 4.—(AP)—With 10 gunners bunched within a target of each other at the top, the final 50-target lap of the three-day all-gauge event of the national skeet championships will be fired at the Blue Rock Gun Club today.

Heading the list after two days of firing in which each member of the record smashing field of 248 has banged away at 200 clay pigeons were an easterner and a far westerner.

Dr. C. J. Scranton, husky East Orange, N. J., surgeon, and Odis Wadling, Los Angeles dry cleaning plant operator, are the pace setters with 198 targets each and they are favorites in fight for the premier title of skeet.

### Sells Without Liquor License, Fined \$150

(Telegraph Special Service.)

Sterling, Sept. 4.—Dewey Breisch of Sterling, formerly of Dixon, pleaded guilty to selling intoxicating liquor without a license when arraigned before Judge H. J. Ludens in county court Friday morning. He was fined \$150 and costs and made arrangements to pay. Breisch was operating the Vanetel tavern north of Sterling when arrested.

### INVENTOR DEAD

### Absolutely True

Green Bay, Wis., Sept. 4.—(AP)—The thermometer stood at 80 plus when a falling icicle hit Ray Rasmussen, 33, on the head. He recovered consciousness at a local hospital with a cut on his scalp that required three stitches to close.

Ray works for an ice company. The icicle fell from the ceiling of the storage room.

### WESTERN POWERS DEMAND CHINESE, JAPS WITHDRAW

Insist International Settlement Be Haven For Refugees

By The Associated Press

Shanghai, Sept. 4.—American, British and French consuls generally demanded today that Chinese land forces and Japanese warships withdraw from the vicinity of the international settlement and the French concession, havens for thousands of foreigners in this international city and splattered by artillery shelling in the bitter warfare between Chinese and Japanese.

The consular officials addressed a joint communication to Mayor O. K. Yui, protesting further endangering of the international settlement where about 100 civilians were killed yesterday. The mayor sped the representation to the Nanking central government.

American, British, French and other warships were in the Whangpoo along Shanghai's famous bund, determined to protect their nationals, but the war-fagged city steeled herself against the prospect of a more terrifying "reprisal push" by the mighty Nipponese war machine, temporarily stalled by China's big guns.

New Fires Ignited

Great new fires broke out in Chinese sections of the city today under bombardment by Japanese aircraft. Each side claimed advances in fighting in the Lühuo-Woosung sector, along the mighty Yangtze and down-river from Shanghai proper.

The United States consulate received reports that Japanese planes dropped 50 bombs on Ningpo, south of Shanghai in Chekiang province.

The Chinese provincial governor of Chekiang province assured the consulate he would make every effort to protect Americans.

In Tokyo, Emperor Hirohito declared China had aggravated the situation by failure to understand the true Japanese intentions, which he termed the stabilization of eastern Asia and the mutual prosperity of China and Japan.

The Emperor spoke at the opening of an emergency "war session" of the Japanese parliament.

Carrying the warfare 600 miles south along the Chinese coast, a Japanese cruiser and four Japanese destroyers bombarded the port of Amoy for four hours while supporting airplanes dropped bombs on the Chinese military headquarters and fortress.

Revolt Rumors Persist

Reports of revolts in the Japanese-dominated Manchurian army persisted in Suifu, the latest Chinese dispatch said. The entire second division of the Manchoukuo army stationed in north Chahar province rebelled and declared its allegiance to China.

Food shortage in Peiping was relieved with receipt of flour and rice supplies.

While hostilities raged in Shanghai, Mme. Chiang Kai-Shek, China's first lady, predicted Japan might some day wage bitter war against the United States or Great Britain.

Twenty-one Chinese civilians were wounded and one killed by Chinese anti-aircraft fire which sprayed Shanghai's leading residential district on Bubbling Well road. A shell fell close to the United States marines barracks.

### Demand Quiz Of Hoover's Methods

Indianapolis, Sept. 4.—(AP)—Matt Leach, discharged today as Captain of State Police, issued a statement in which he demanded a congressional investigation of the "method and motives" of J. Edgar Hoover head of the Federal Bureau of Investigation.

Leach charged the Department of Justice with failure to cooperate with the state police and said "the attitude of the Department of Justice now becomes definite antagonism."

Donald P. Stiver, Superintendent of State Police, said formal charges would be filed against Leach later one of which he said would be failure to cooperate with Federal agents.

Leach, in charge of state police since 1933 during which numerous attempts to capture John Dillinger notorious desperado now dead, were made, had refused to resign at the request of the State Police board.

Leach said he would demand a hearing as provided by the State Police law.

### COLORADO BLIZZARD

Colorado Springs, Colo., Sept. 4.—(AP)—None of the more than 100 motorists snow-bound on Pike's Peak by a sudden blizzard and sleet storm suffered ill-effects today. State police were needed yesterday to unsnarl the traffic jams on the peak's steep highways. Between four and six inches of snow fell.

## CHICAGO PLANS FARM WEEK FOR JUBILEE FEST

### City To Be Converted Into Biggest Hick Town In U. S.

Chicago, Sept. 4.—(Special)—Chicago is going strictly rural.

The second biggest city of the western hemisphere is bending all its energies on becoming the biggest hick town in the country—with its lakefront converted into the world's largest barn yard and its mammoth Soldier Field into the scene of the world's largest barn dance.

For the week of September 12 to 18, tourists in Chicago will witness strange sights. Cows, sheep, hogs, horses and mules will parade along Michigan avenue. Hog calls, horse-shoes and rolling pins will fill the air above Lakefront Grant park.

Milkmaids will perform on prize cows in the shadow of Chicago's skyscrapers. Sheep shearers will demonstrate where the wool comes from for city folks' clothes. Horses will compete in a pulling contest.

The entire week of September 12 to 18 has been designated Farm Week Festival—concluding tourist attraction of Chicago's Charter Jubilee—and mingled with the programs of rural sports will be a colorful pageant of farm life along Michigan avenue, a picturesque national fiddle and square dance championship contest, and the national barn dance—with all the nationally known radio performers of the WLS program taking part.

Opening Farm Week on Sunday, Sept. 12, will be an imposing Thanksgiving service at Stagg Field of the University of Chicago, with old-fashioned hymns sung by the famous Apollo club and Paulist choir, accompanied by the Chicago Symphony orchestra. Officiating will be the Rev. Dr. J. W. Holland, who presides over the "Little Brown Church" radio program.

The Farm Festival pageant will take place on Monday night, Sept. 12—with King Corn and a lovely Harvest Queen heading the procession. Beauty and comedy will be blended in this parade, which will represent the farm and farm life.

An Tuesday, Sept. 14, the Jubilee fiddle and square dance championship will take place in Grant park. Wednesday, Sept. 15, will be devoted to horse pulling contests, for prizes aggregating \$650.

Thursday, Sept. 15, will be Farm Youth day, with the 4-H clubs taking part in games and contests.

The first National Farm Olympiad is scheduled for Friday, Sept. 17—which has been designated as Pure Milk Farms day. Events scheduled include: Milking hog calling, chicken calling, husband calling, rolling pin throwing, wood chopping, post driving, horseshoe pitching, sheep shearing. On Friday night the world's largest national barn dance is scheduled for Soldier Field.

Farm Week ends with a national plowing contest.

Admission to all events is free. Special tickets for the barn dance may be obtained through travel and tourist organizations and from Chicago's Charter Jubilee, 33 North LaSalle street, Chicago.

**WANTS AN "APRIL MAN" TO SETTLE HIS HOME LIFE**

New Rochelle, N. Y., Sept. 4.—(AP)—Tommy Manville, man of many blondes and many dollars, announced yesterday he had picked a Manhattan physician to look into his sanity, thus anticipating a move his fourth wife, Marcelle Edwards, was reported making.

In the seclusion of his fortress-like home on Long Island Sound, the white-haired asbestos heir, took time off from preparations for a big Labor Day week-end party to announce:

"I have learned they are attempting to have a commission examine me because I am squandering Marcelle's money."

So, he said, raising his voice to shout over the telephone, he had called up Dr. William H. Bishop and a group of the doctor's lawyers.

Motion was made by Supervisor Wolf that Supervisor Spencer procure an order from the County Clerk directing the County Treasurer to receive said money and place in the proper fund.

The mileage and per diem, as follows, was read before the Board by the Clerk.

New York, Sept. 4.—(AP)—There are 20,000 lawyers in New York, and Thomas Franklin Manville, Jr., of the gray hair and gay heart, wants to see one of them—an "April man."

He put a full page advertisement in a morning tabloid paper Friday which read:

"Wanted, an attorney, Tommy Manville, Box 1002, New Rochelle, N. Y."

The remainder of the "ad" was just white space, but Tommy, expanded verbally.

"He must be an April person," went the specifications, "because I was born in that month and such."

## NEXT WEEK'S WEATHER

### PINK CLOUDS AND GREY

People who live on land never feel the effects of weather as much as do men who follow the sea in ships. Water reflects every mood of the weather, so that sailors feel that they are almost as much a part of the sky as they are of the water. When the sky is stormy the wind whips the water into waves in a few minutes and after a storm has raged for several hours the sea is tossing with waves. Landsmen sometimes think of the motion of sea waves as something like being rocked in the cradle of the deep, as though the motion of a ship was simply a swaying like a hammock. Perhaps if they could go through a storm at sea and feel the jolts and blows they get the irregular motion of the deck, and the horrible sea sickness, they would have a better idea of what weather means to a sailor. During a storm sailors watch the sky much more eagerly than any landsman ever watches it, and when pink clouds show through the grey clouds of the storm, sailors are glad, because the pink marks the beginning of the end of their torment.

If we watch the signs that the sailors watch we, too, can learn to foretell the weather by the sky.

Storm clouds are grey because they are thick. Sun light penetrates clouds poorly. Clouds, you remember, are made of tiny drops of water and light reflected from one drop to another soon becomes highly diffused. When clouds are thick a great deal of light is absorbed and what remains is dim and grey.

Storm clouds never have the characteristic color of direct sunshine, but when we reach the edge of the storm and meet the cold air advancing from the west we see a different set of appearances. The air of the coming cold area is clear, and when the sun is low it absorbs much blue light so that the light from the sun shines red. When this red light shines on storm clouds it tints them pink. When sailors see the first streak of pink light shining on grey clouds they know that they are getting near the edge of the storm and that shortly after the clear air will be upon them and then the wind will slowly die down and fair weather will follow. As it is on the sea so it is on the land.

Shaded areas on the map indicate clouds carrying moisture. Temperatures are figured from normal. There is a normal temperature for every day for every place. Normal depends on season. 5 degrees above normal is warm; 10 above is hot. 5 degrees below is cool; 10 is cold.

## Christian Church W.M.S. in Session

The Woman's Missionary society of the Christian church held a pleasant meeting on Thursday at the home of Mrs. J. F. Kindig.

The president, Mrs. S. A. Bennett, took charge of the meeting. She gave the opening prayer and then read letters from Mrs. Stella Peck and Mrs. Ora Shepherd.

There was a short business meeting. Miss Bess Johnson gave the offertory prayer and Mrs. Fred McCordie led the devotion. She read from Matthew, 1st Chapter 35-38 verses and from John 4th Chapter 34-36 verses. Mrs. McCordie also read an article on "Harvests" and gave a prayer.

Mrs. Frank Gates prepared the program. She talked of "Singing Behind the Plow"—of how the people in North Carolina want the schools and will study practical subjects. These schools also create an interest in farm life. The folk school is one of these.

Mrs. Kindig told about the "Nation Helping the Farmer". America began with the thrifty, hard-working pioneer farmer tilling his own soil. Its rural life may be redeemed from the drift toward peasantry by a new pioneering in social and economic reform—that of enabling the tiller of the soil to own the soil he tills and thus to make his home his own. The benediction followed.

After this program a social hour was enjoyed and Mrs. Kindig and Mrs. Peterson, the hostesses, served refreshments.

## Gleaners' Club At Mrs. Tice's Home

Gleaners' club of the First Christian met at the home of Mrs. Ora Tice, last night. About 25 guests and members were present.

Mrs. Hoot was in charge of the devotionals. Mrs. Sue Stauffer, president, was in charge of the meetings. The collectors reported \$15.87 from the penny banks for the month of August. Collections were incomplete.

After the business meeting a short program was given, consisting of a recitation by Carrie Mae Floto and a short play by Mrs. Regan, Mrs. Tice, Mrs. Anderson and Mrs. Walter.

The hostess served tasty refreshments and at a late hour the guests departed for their home after a most enjoyable evening. The October meeting will be held at the church.

## PICKLES

Offsetting the bland taste which meals tend to acquire during late winter months, can be the flavor which home-canned relishes offer. Corn, tomatoes and apple which are unable to meet the standards required for individual canning may well be utilized in appetizing mixtures, according to Miss Grace Armstrong, extension specialist in foods, College of Agriculture, University of Illinois.

Miss Armstrong also recommends that small quantities of fruits or vegetables, or those which have an inferior taste, be made into relish.

### Corn Relish

Use 2 quarts corn, 12 sweet green peppers, 3 sweet red peppers, 1 quart onion, 1 quart ripe cucumbers, 2 quarts medium ripe tomatoes, 2 quarts cider vinegar, 1 quart sugar, ½ cup salt, 2 tablespoons celery seed, 1 tablespoon mustard seed, 1 tablespoon turmeric powder. Grind all the ingredients together, drain, add seasonings, sugar, vinegar, and cook 40 minutes and can.

### Chili Sauce

The recipe requires 12 ripe tomatoes, 1 red pepper, 1 green pepper, 1 large onion, 2 cups vinegar, 1 cup brown sugar, 1 tablespoon salt, 1 teaspoon whole allspice, 1 teaspoon cinnamon, 1 teaspoon ground nutmeg and 1 teaspoon ground ginger.

Remove skins from tomatoes and chop with the peppers and onions. Add the vinegar and spices and bring to a boil. Stir to prevent burning. Boil until sauce begins to thicken (about 1 hour). Pour the chili sauce into hot jars and seal at once.

Other relish recipes are available in the pamphlet entitled "Suggestions for Making Pickles," from the extension service, College of Agriculture, University of Illinois.

## High Quality of Corn Makes Home Canning Inviting

Urbana, Ill., Sept. 4—An abundant crop of high quality corn for canning confronts Illinois home-makers. Canning as large a supply as possible is urged by Miss Grace Armstrong, extension specialist in foods, college of agriculture, University of Illinois, in as much as the process may be economically carried out and cost of living, during the eight months when gardens are unproductive, may be cut down.

Commercial canneries, according to L. A. Somers, associate in vegetable gardening extension, college of agriculture, University of Illinois, report that 70 per cent of the corn received has proved of high enough quality to can.

Two methods of canning are recommended by Miss Armstrong: the whole grain style and the cream style. The best product is obtained if the corn is canned absolutely fresh, that is, less than two hours after it is picked. Thus flavor and keeping quality are assured. During the actual canning process, prepare only enough corn for cans which will fit into the pressure cooker at one time. If filled cans have to wait while others process, they may develop the condition known as "flat sour."

The method is to husk and silk the corn, using a stiff brush to remove the silk.

**Whole Grain Corn**  
Cut the corn from the cob so that the kernels are whole. Do not scrape the cob. Add ½ as much boiling water as corn. Heat to boiling point. Pack into pint jars or No. 2 C-enameled tin cans. Leave ½ inch space at top of the container. Add ½ teaspoon salt and ½ to 1 teaspoon sugar, if desired, to each pint. Process in a pressure cooker at 10 pounds pressure; pint jars or No. 2 cans, 60 minutes.

**Cream Style**  
Cut off the tips of the kernels and scrape cob with back of knife. Add ½ cup boiling water for each cup of corn. Heat to boiling point. Fill pint jars or No. 2 C-enameled cans to within ½ inch of top direct from stove while corn mixture is boiling. Add ½ teaspoon salt and ½ to 1 teaspoon sugar, if desired, to each pint. Boiling mixture should be thin or about the consistency of coffee (20 per cent) cream. Process in a pressure cooker at 15 pounds pressure; pint jars, 75 minutes; No. 2 cans, 70 minutes. Caution is given not to fill the jars too full since corn expands during the canning process.

## DAILY HEALTH

By DR. JAGO GALDSTON  
MALARIA RAVAGES

Our compliments to the Jefferson County Board of Health on its monthly bulletin called Birmingham's Health, and notably on its issue dealing with "Malaria in Alabama."

Here's the bulletin's story in excerpts: only in Africa and Central America. There are areas in our own state almost as dangerous for the non-immune visitor.

"Fever-ridden jungles" exist not "Of all diseases which have ravaged humanity there is none which is more terrible than malaria; and this in spite of the fact that we have full knowledge of its cause, the manner of its spread and the means of prevention and cure."

"Centuries ago many believed that malaria was in some way associated with insects, but the truth was not discovered until about 1896. We now know that this disease can be transmitted only through the bite of an infected mosquito. The parasite of malaria is not a simple bacterium, but is an animal parasite with a complicated life cycle passing through a number of mysterious phases."

"The world wide recorded mortality of malaria is high, but even this fact does not indicate its true drain on humanity, for it is not in the death rate that the total cost of malarial lies. It is in the sickness rate, the loss of efficiency it causes, rather than in the loss of life. One death from pneumonia usually averages about 125 work days lost, one typhoid death averages 450 to 500 sick days, one from tuberculosis somewhat more among whites but less among Negroes. A death from malaria, however, represents from 2,000 to 4,000 sick days!"

"Travelers who of necessity must enter known malarious country should keep inside a well-screened house from before sunset until after sunrise; since the malaria mosquito is a night and twilight biter. Since this mosquito is quite thoroughly domesticated and quite skillful in seeking out points of entry, the only safe house is one which is thoroughly mosquito-proof; and even then, individual bed nets may be desirable."

"It is sometimes desirable for travelers in a malarious country to take small doses of quinine daily as a prophylactic; usually about two and one-half grains per day. The advice of a physician should be sought before doing this, however."

Tomorrow: Tain't So.

"Tain't So"  
To know "what isn't so" is frequently as useful as to know what is, particularly in the realm of health and hygiene. For here the unscrupulous make "wild claims, many of them phrased in language closely resembling the jargon of the earnest scientist."

Acid in your system! Certainly, without acids health is impaired and life itself is endangered. But, pimples, skin blotches, a greasy complexion, excess fat, falling hair, and the hangover have nothing to do with excess acid. Furthermore, they will not be mended or corrected by the alkaline nostrum offered for 50 or a hundred times the price of the ingredients they contain.

Food for your skin! Yes, the skin can be fed, but only by way of the foods eaten. External skin foods are the salesman's invention, supplying none of the body's needs. Many cosmetic applications are of-

fered to the public with the most preposterous of claims. We need not subscribe to the Spartan idea that soap, water and elbow grease are all the essentials required for good skin hygiene.

The dermatologist knows of the benefits to be derived from the use of certain creams, lotions, etc., useful in dealing with the skin too oily or too dry. He is psychologist enough to appreciate the cosmetic roles of perfumes, powders and rouge. But all limits of reasonableness are exceeded when creams are offered containing vitamins and endocrine substances, precious metals, and secret rejuvenating compounds.

Regrowing hair! Yes, it can be done (in a measure) provided there remains something of a hair to be regrown. But for the average case baldness in young adulthood, our present-day knowledge permits us to hope for little more than conservation of what is remaining. Good scalp hygiene (washing and brushing), massage of the scalp, the correction of constitutional defects, since baldness may be due to a variety of systemic diseases, may help conserve one's hair.

But all this is a far cry from the hocus-pocus offered by the self-styled specialist in hair—the trichologist. The person "growing bald" should consult his physician, and, when necessary a dermatologist. He is thus best likely to save his hair, and most certain to save his money.

## Herrin Paper Issues Big Special Edition

Among the newspapers received in exchange this week by the Telegraph was a special edition of the Herrin Daily Journal published at Herrin, Ill.

This edition totaled 96 pages divided into 12 sections complete with photographs and giving a graphic account of the progress and achievement of the city.

A seven column photograph on the opening sheet shows the main street of the city with 11 cars, parked side by side to demonstrate the width.

In 1898 the village was incorporated, and in 1900 Herrin was incorporated as a city. Twenty years later a population of 11,186 was recorded.

The city's growth was rapid and the boom which followed the discovery of coal attracted new families into the area.

The first author to submit a typewritten manuscript to a publisher was Mark Twain, American humorist.

## WARMKERS TRY NEW BRAND OF WHITEWASH

In the progressive world treatise on war, the most elusive chapter for the back-home observer is the one entitled "Propaganda." During the world conflict, the United States was flooded with tales of babies pitched on bayonets, of mothers beaten, forced into slavery or otherwise abused; of cathedrals and libraries wantonly destroyed.

When those stories—often told in pictures—were exposed, after the peace treaties, as fakes, American indignation knew no bounds. Never again would the nation play fall guy for such grousing leg-pulling.

Then came Italy's invasion of Ethiopia, the Rebel "crusade" in Spain and the Japanese push in north China. And the public relations counsel of the general staffs began writing revisions and addenda to that chapter on propaganda. They took off the rough edges, changed to a smoother, more soothing pace, perfectly designed to take in the very people who once protested loudly against any more "atrocity stories."

Mussolini pioneered the new style of wartime misrepresentation in depicting his Ethiopian war as to liberate the slaves and illiterates writhing under Haile Selassie's heel. But the crowning work was the Rome reception arranged for little groups of traitorous Ethiopian chiefs. Their brotherly welcome into the empire was a masterpiece of subtle propaganda.

Both sides in the Spanish civil war have followed Il Duce's lead. Best trick of the rebels is to issue dispatches describing mercy doles for women and children in besieged and captive towns. Allowed to seep out in government communiques are stories of air bombing or shelling withheld from helpless communities. Pictures have been released to emphasize this spirit of overbearing kindness, this tender compassion of steely men-at-arms.

Not to be outdone, the Japanese now are wooing world sympathy with the same finesse. What a thrill of deep understanding is conveyed by a photograph of a bent and aged Chinaman offering a Japanese invader a cup of hot tea! What deathless sentiment is imparted by a view of innocent Chinese children fraternizing with grizzled Japanese veterans (who have children back home).

Thus has the new propaganda come into being. Knowing as well as anyone that war can not be supported by any stretch of reason, the militarists have gone in for homespun, heart-throb scenarios to win sympathy abroad.

Anyone impelled by these crafty devices to feel that even a warring army has a soul, or that bloody conquest is justifiable when its motives are honest and unselfish, should call a halt and begin looking for the joker.

After all, war is still war and in its fury it sweeps men, women and children alike to destruction. In the same way, propaganda is still propaganda. It has changed only in the brand of whitewash used to conceal the despicable facts of mass murder.

## POLITICS IN THE ARCTIC

From the Soviet Arctic, 47 Eskimos have been brought to the Kamchatka peninsula for a course in political leadership. Their first duty to civilization was to learn to tie their shoelaces and button their clothes.

Under Soviet instruction, the Eskimos were dressed for the first time in European clothing, saw their first map, were told why the moon shines and learned of the new Soviet constitution.

Presumably, if the course dealt mainly with political leadership, those 47 Eskimos also learned how to undermine the opposition by boring from within, how to establish prisons for wayward members who stray off the true party line, and how to harpoon fellow-Eskimo Communists who sabotage progress by failing to bring in their quota of bearskin and blubber.

Civilization a la Soviet has reached into the land of the midnight sun, and if those Red teachers did their job properly, it's going to be a longer, colder winter for the rugged individualists of the igloo commune.

## WPA FLYING SERVICE

Getting the work done at an hourly cost of about 60 cents, the WPA has completed \$63,710,642 worth of improvements on 940 airport projects, which seems a government item worth singling out.

The work included improved runways, terminal buildings and hangars, roads, walks, boundary marks, and field drainage. Small town ports and emergency landing fields were developed as well as metropolitan air terminals.

Pennsylvania, scene of so many winter crashes and fatalities, came in for almost 11 million dollars worth of the work—far more than any other state except California.

The ground equipment of the airways has not kept up with its flying equipment, and if these improvements do even a small part to help make flying safer it will be work well done.

Just one emergency field might be supremely valuable in human lives if it came into sight at the right minute.

## Schools to Reopen Tuesday

With an expected grade enrollment of about eighty pupils and a high school registration of about seventy students, the local schools will officially start their school year Tuesday morning at 8:45.

Teacher assignments—The instructional staff of the grade school (district No. 58) is as follows: Miss Audra Williams, grades I, II, III; Miss Kathryn Lehman, grades IV, V, VI; LaVerne Edwards, grades VII, VIII and physical education supervisor of all grades; Mrs. Esther Cluts, music supervisor, all grades.

The instructional staff and activity load of the high school (district No. 259) is as follows: Miss Mary Crain, home economics, biological science, girls' physical education; Miss Frances Clifton, English I, II, III, IV, Latin I, library and dramatics; Evan Kinsey, social sciences, Latin II, boys' physical education, basketball and baseball; Miss Blanche Lyford, mathematics, commercial subjects, supervision girls' physical education, school publicity, assistant to superintendent; Neil Fox, physics, manual arts, track, school orchestra, administration and supervision of grades and high school; Mrs. Esther Cluts, vocal study and special music.

New innovations—In keeping with the recent trend for more safety education in the school, the local high school is cooperating with the State Highway department in offering units of study pertaining to automobile operation and traffic safety instruction. Over two hundred schools in the state are revising their courses of study to include this badly needed instruction.

An attempt will be made this year to secure leaders in various occupational fields to appear for informal assembly talks, stressing the good and undesirable features of many possible vocations.

An active 4-H club was organized early in the summer under the able leadership of Herman Schafer, a former 4-H man. This club can do much to stimulate interest in agriculture among the boys, both in and out of high school. Should the club succeed in getting a minimum of fifteen to twenty boys interested in taking vocational agriculture courses, it is very possible that federal aid can be secured to re-instate this department in our school.

Notable events—In addition to a well balanced program of plays and athletic events, it is hoped that an outstanding adult agricultural school will be featured this winter.

It is possible that Franklin Grove high school will be host to one or two basketball tournaments here, and it is likely that a school carnival will be held again this year.

So far as accidents are concerned, the safest age for driving a car is between 20 and 30 for men, and 20 to 40 for women, according to statistics.

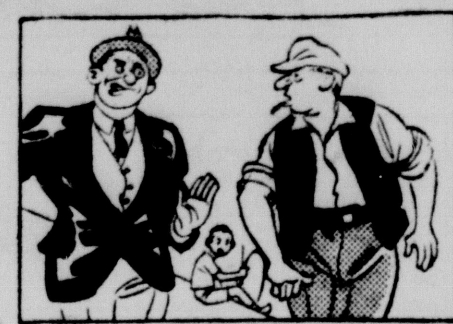

Prinzp was the assassin of the archduke of Austria and his wife, the crime which is blamed for the start of the World War.

Nobraska was the first state in the Union to observe Arbor Day, in April, 1872.

## Answer to Question No. 1

1. Ninety-five per cent of the people we have asked choose No. 1. I do not agree with them. Maybe because my life is dedicated to race improvement I think he should save his sweetheart. Much as he loves his mother she has fulfilled her mission to the race. Suppose all men had to make this decision and should save the mother—the race would end. The sister should come next, even though his love for his mother were much the greater, because she too may carry on the race. I don't ask everybody to agree with me, but this is my point of view.

3. Some people lie so easily, gracefully, artistically and continuously that it is hard to believe they were not born that way. However, while some people lie much more persistently and successfully than others, yet a very large research indicates they have taken to lying either because they lack sufficient courage or intelligence, or emotional balance to tell the truth. Many people lie because they have an inferiority complex, and, instead of solving their problems, lie out of them. Others want to succeed and become important so badly they lie to secure this importance. But, even they learn mostly by practice.

## Mayor Says Python's Escape 'Looks Funny'

Belvidere, Ill., Sept. 3.—(AP)—Mayor Perry Cratty said it all seemed clear to him—that the 20 foot python that was reported escaped from a carnival snake show.

"It looks funny to me," the Mayor said, "that the snake was captured on the roof of the house where the show's press agent is staying."

"I've got the police working on the case. I'm going to prosecute somebody if I can prove what I hear—that the snake was carried into the house in a sack and turned loose on the roof."

The mayor said the snake-attorney "had all the women and children in town scared to death."

"I may get 'em for a false fire alarm if nothing else," he said.

He said someone called the fire department just before the huge reptile was "captured" by carnival workers.

## HENKEL UPSET BY BUXBY SICK WITH DISGUST

### Stunning Defeat By Unknown Miamian Distracts Him

Forest Hills, Sept. 4.—(AP)—It was difficult to guess today which was the sicker individual—Henkel, the eminent German tennis player, or the anonymous genius hereabouts who make up the daily schedule of courts that the various stars play on in the national championships.

Henkel, champion of Germany and France this year and favored in pre-tournament calculations to reach at least the semi-finals in the present go-round, was understandably ill of mind at having been polished off in yesterday's second round by Martin Buxby, the Miami real estate salesman who was ranked 19th on the national list two years ago and hadn't been heard of since.

The unnamed individual who assigned Henkel one of the tournament's big gate attractions, to perform on an outside court that offered more distractions than Times Square of a Saturday night must have been running the German ace a close second in mental torture. He set the stage. Henkel was only an unwilling and bewildered actor in a very dizzy drama.

**Didn't Foresee Pills**

Neither Henkel nor the court assigner could have foreseen, of course, that Buxby, a painful victim of insomnia since he was in an auto accident near Tampa last winter, should have discovered the delights of sleeping pills in recent days.

"They're doing me a world of good," he said after the match. "I got a little sleep last night and I felt good out there. Now, those ball-boys running across the court after our neighbor's balls and all that noise didn't bother me a bit. I guess they upset Henkel a little though."

Martin will never make a truer understatement if he lives to be a million. Henkel, 18 pounds underweight since he hit these shores and, to tell the truth, in need of a little pampering if he was to go on pulling his weight at the box-office, looked like a prospective client for an outside room at Mattheawan before Buxby finished beating him, 5-7, 6-1, 6-4, 6-1.

All the other performers of any moment still were on the merry-go-round today. Bobby Riggs, though, came near getting unhorsed in the twilight by Gene Mako, who gave him a surprising battle before succumbing, 2-6, 6-3, 6-4, 7-5.

## YANK HITTING DROUTH IRKS THEIR PILOT

### Dodgers Threaten To Shave Giants' Lead Down

By Sid Feder

Associated Press Sports Writer

Joe McCarthy is beginning to agree that he has a "wonder" team in his New York Yankees. He "wonders" when they're going to start hitting again.

While the National league snarl, featuring the Giants and Cubs, with the Dodgers as chief jokers, has been drawing the spotlight on the baseball stage recently, things have been happening to those Yanks.

Of course, with a nine-game lead in the American league the Yanks haven't any immediate worry, such as the bogey-man which is haunting the Giants, whose National league edge was a mere half-game today, and threatened still further by their chief haters, the Dodgers.

But the fact remains that the once-mighty Yankees are in such a hitting slump that even rookie pitchers are finding it something less than a day's labor to knock them off.

### Yanks In Hitting Slump

As a result, in their last 11 starts, the Yanks have won only five. Their lead, which once reached the awe-inspiring margin of 13½ games has dwindled to nine.

But for the fact that the second-place Tigers are finding it tough to keep themselves untracked, the Yanks might be in real danger.

Rookie Ken Chase, whose only previous claim to fame was based on a decision he earned over Bobby Feller, handed Gehrig and company its third straight beating yesterday. He handcuffed the heavy hitters, allowed only seven hits altogether, and finished on top, 4-2.

Since the Tigers trounced the white Sox, 4-3, this defeat cut a full game from the Yankee lead.

The big doings of the day, however, were staged at the Polo Grounds. The daffy Dodgers, never having so much fun as when they're pinning the donkey's tail of their long-feudists, really knocked the ears off the Giants, clubbing out 18 hits for a 15-7 victory. This defeat shaved the Giants' lead to a bare half-game over the idle Cubs.

The Indians featured a nine-run eighth inning to wallopp the poor old Browns, 15-3. The Bees put on a five-run spree tie the tenth to take the Phillies, 7-2. For Jim Turner's 16th pitching win. The Reds had a seven-run fifth frame to take the Cardinals, 9-1, in a night game.

Like the Cubs, the Pirates in the National League and the Red Sox and Athletics in the American had the day off.

## Il Duce to Visit Hitler this Month

Berlin, Sept. 4.—(AP)—Nazi party convention preparations today paved the way for Premier Benito Mussolini's impending face-to-face meeting with his closest collaborator—Reichsfuehrer Adolf Hitler.

Strengthening of Italo-German relations and open inclusion of the Spanish insurgent regime of General Francisco Franco in the fascist bloc of nations were expected to be important developments of the Nazi convention that opens in Nurnberg Monday.

Soon thereafter the Italian Duce will come for a portentous visit with Hitler. Officials announcements said he would make his visit the last of this month upon the invitation of der Fuehrer.

Hitler's own mouthpiece, Voelkischer Beobachter, hailed the approaching event as new evidence of the strength of the Rome-Berlin axis and as heralding the birth of a new Europe.

Although plans for the Duce's visit were incomplete, it was understood he would be present at special army maneuvers in northern Germany. Flagmakers were ordered hurriedly to produce 50,000 Italian flags to give Mussolini a welcome.

An official Italian announcement disclosed that preceding Mussolini's visit undersecretary for foreign affairs Giuseppe Bastianini would head a mission to the Nazi convention, along with Italian labor leaders. Spanish youth leaders are expected to attend as representatives of General Franco.

## Northwestern Confronts Hard Football Campaign Defending 1936 Big Ten Championship

### Waldorf Faces His Greatest Test As Mentor

Winning a Big Ten football championship may be difficult, but defending it is even more so.

Not the least of the problems confronting Coach Lynn Waldorf at Northwestern University this fall is that five of the six conference games on the schedule are with teams that fell victim to the Wildcats' undefeated march to the title in 1936.

These five teams — Minnesota, Ohio State, Illinois, Michigan and Wisconsin—will point for Northwestern, not only to upset the champion but to obtain revenge for last year's defeat. The sixth conference opponent is Purdue which replaces Iowa. The non-conference teams on the schedule are Iowa State which will open the season, Oct. 2, and the traditional rival, Notre Dame, the only team to defeat the Wildcats last year.

Coach Waldorf's reputation as a "trouble shooter" will be put to its greatest test this fall, for not only do the Wildcats face another typically strong schedule but last year's championship team must be largely rebuilt.

Graduation cut heavily into the ranks, taking 16 out of 28 lettermen. Many of those who are gone played leading roles in last year's title drive and the extent to which they are replaced will determine Northwestern's place in the 1937 football campaign.

One of the biggest jobs confronting Waldorf and his staff is rebuilding the line which was hit hardest by graduation. Last season the Wildcats possessed two lines of almost equal ability, but the loss of 11 linemen has created a real problem. The tackle, guard and center positions suffered heaviest by graduation. Only three lettermen will be back at these positions.

Successors must be developed for the guards, Reid, Schreiber and Devry; tackles, Gibson, Wray, Burnett and Malloy; ends, Zitzko and Bender, and centers, Fuller and Artabasy. These players comprised the bulwark of one of the strongest lines developed in the conference in some years.

**Fullback Loss Serious**

The principal backfield loss was at fullback where Steve Toth and Don Geyer who placed first and second in Big Ten scoring last fall have graduated. Ollie Aedelman, halfback, and Chet Gargas, blocking quarter, are other backfield lettermen lost.

However, the Wildcats have the nucleus for a strong backfield led by Capt. Don Heap, one of the outstanding ball carriers and passers in the conference. Heap, a slashing type of runner, has been the king-pin of the Wildcat attack for two years.

Fred Vanzo, 215 pound blocking quarterback and hero of the Minnesota game last fall where his brilliant defensive play stood out, will also be back for his final year of competition. Bob Swisher, fleet halfback, has returned to school and will share the left halfback assignment with Heap.

The two Negro players, Bernard Jefferson and Clarence Hinton, are the leading candidates for right half, along with Iggy Mesec, a junior. Jefferson will do most of the kicking for the Wildcats this fall. Other hold-over backs from last year are Jack Kaufman, Jack Metcalf, Don Paul, and Mill Rusteen.

Developing a fullback is one of the principal backfield problems since no experienced player is available. Jack Major who earned a minor letter as a halfback last year has been shifted to the position. Harvey Lanman and John Rose, hold-overs from last year, and George McGurn, Jay Laskay and Oliver Babcock, sophomores, are the other fullback candidates.

**Ryan Draws Attention**

Another sophomore back who attracted attention in the spring drills was Jack Ryan of Milwaukee,

whose father was former football coach at Wisconsin. Ryan who can run and pass will support Heap and Swisher at left half. Other sophomore backs who show promise are Nick Contas of Waukegan and Joe Hay of Rock Springs, Wyo., blocking backs, and Reynold Soukup of Chicago, a halfback.

Bob Voights, stocky 193 pound junior, is the only letterman returning at tackle. He will be stationed at right tackle where he will be supported by Bill Springer and Bob Anderson, seniors with little playing experience, and Frank Young and John Liddell, promising sophomores, both hailing from Ponca City, Oklahoma. Nick Cutlich, 235 pound sophomore from East Chicago, Indiana, is the leading candidate for left tackle. Joe Vavrus of Chicago Heights, Charles Carroll and Tom Langworthy of Libertyville, all sophomores, are the other principal candidates for the position.

Mike Calvano, a senior letterman, will succeed last year's captain, Steve Reid, at right guard. Competition will be provided by Jack O'Leary, Albert Armato and Fred Heitman, squadmen, and Hal Method, 188 pound sophomore from Indiana Harbor, Dick Wells, Tom Irving and Art Cliff, minor lettermen, and sophomores Don Guritz and Jim Ferguson, are contenders for right guard.

Loss of Fuller at center leaves Erwin Wagner, his understudy for two years, as the leading candidate. Bob Koble, a junior, and John Goldak, sophomore from St. Louis, are other leading aspirants for the job.

Four lettermen, two of whom were regulars last year, form the nucleus for a strong group of ends. The veteran John Kovatch, a fine pass receiver and excellent defensive man, will again be at left end. Cleo Diehl, 6 foot 1 inch junior, will be back at his post at the other flank.

Tom Eby and Ed Klam, two more lettermen, and Murray North and Paul Werd, form the other hold-overs from last year. Bob Daly, 6 foot 2 inches and a former star at Evanston high, is one of the leading sophomore candidates. He is expected to push the veterans for a starting position. Other first year men are Jim Bittling of Grand Haven, Michigan, Ted Greife of Des Moines, Ed Kellogg of Peoria, Bob Vutech of Cleveland, and Henry Nickel and George Murphy of Chicago.

Rev. and Mrs. D. A. Rowland, residents of Dixon for over twenty years returned from a two week's visit in the east yesterday. They were in the communities of their young days visiting relatives and friends, and worshiped in the church where they worshiped years ago. Important cities where they visited were: Martinsburg, Hagerstown, Beaver Creek, Medmore, Clearspring, Ky., in 1856, while Mrs. Rowland hailed from Hagerstown. Mr. Rowland has many interesting things to tell of the many changes during his life, beginning in a log cabin, but says there is no better place than Dixon.

Rev. and Mrs. Rowland report a pleasant trip, they enjoyed good health, and returned happy, safe and sound, glad to see their good home in Dixon.

Pollard clinched first place last night without playing when his only rival, George Treisman of New York, was defeated in 35 moves by Donald MacMurray of Chicago. Treisman's record was 5½-3½, 7½-1½ for Pollard. Herman Steiner of Los Angeles had a mark of 6½-3½.

## GEHRINGER NOW SHARES BATTING TOP WITH DUCKY

### Cardinal Clouter's Slump Continues; Average .388

New York, Sept. 4.—(AP)—Ducky Medwick no longer holds exclusive rights to the big league batting leadership.

The Detroit Tigers' strong, silent man, Charley Gehring, this week became the first player this season to draw even with the Cardinal clouter, as the National league leader continued in his worst slump of the year.

While Medwick was falling five points to 388 for his season average, Gehring collected 13 hits in 27 chances during the seven-day span to improve his American league mark and climb into a tie with Ducky Wukky.

Generally, the batting leaders in both leagues found the road to the top a rocky one as pitchers held the upper hand during the week. Except for Gehring, every one of the first three in each loop lost ground. Biggest casualty was Paul Waner of the Pirates, second to Medwick in the National league, who dropped nine points to 375. Lou Gehrig, trailing Gehring in the low circuit, lost two points, slipping to 366, thereby leaving Gehring with a 22-point bulge in the circuit hitting race.

## SCHMELING AND LOUIS FINALLY SIGN FOR BOUT

### German Schlager To Meet Bomber Next June, 15 Rounds

New York, Sept. 4.—(AP)—Approximately two years after he won a title "shot" by knocking out Joe Louis in 12 rounds, Max Schmeling will get to fight Louis for the world heavyweight championship next June.

The announcement the German "louter" had been signed for the bout came yesterday as no particular surprise. Fight fans had been expecting Mike Jacobs to attend to that affair as soon as he got the more pressing matter of Joe's title defense against Tony Parr out of the way. For Schmeling, however, it was a matter of considerable importance.

When he whipped Louis back in June, 1936, Max, a former champion himself, automatically superseded Joe as No. 1 challenger for the crown worn by Jimmy Braddock. He signed up to fight in September, then came back from Germany to sign all over again when Braddock developed arthritis in his hands and said he couldn't fight.

**Last "Coust Bout"**

Then came an offer for Braddock to defend the crown against Louis in Chicago last June and Max made another trans-Atlantic trip, which ended in his training for the "phantom" bout after losing practically every round in a bitter court struggle.

Schmeling lost again when he passed up Mike Jacobs' offer of a 30 per cent cut in the gate—the same share that Louis would get—for a title bout this fall and decided to tackle Tommy Farr, the British Empire champion, instead. Jacobs beat him on that one by offering Farr a bigger purse and persuading him to come here and fight Louis instead.

All that led up to a five-hour conference yesterday at which differences were patched up and every detail of the fight, except the exact date and the place where it will be held, was settled.

## PAW PAW NEWS

Plans are all set for the big homecoming next Monday, Labor Day. The park and school grounds make a fine place for the event, and it is convenient for all who wish to attend. Everything is free but the dance in the evening. There will be sports of all kinds for the children as well as the grown-ups.

Word has been received from Rev. Gilbert Johnstone, pastor of the Baptist church, who has spent the past two months at his old home in Scotland, that he will reach New York the latter part of this week and that he will come west immediately and expects to be in Paw Paw Sunday to conduct the regular services.

About thirty men from the neighborhood helped H. M. Beemer do his fall work Tuesday. Mr. Beemer is laid up in a cast as the result of a fall from the haymow. The neighbors dug his potatoes, hauled fertilizer, as well as doing some plowing and other necessary chores. The neighborhood women prepared the dinner. All this is much appreciated by Mr. Beemer and the family.

Orion Hunter, Archie Merriman, Owen Cornell and Arthur Blee returned Thursday evening from their 16-day trip through the west. They enjoyed the scenery particularly well through the Black Hills region, Yellowstone Park and Colorado Springs. They went as far west as Salt Lake City, where they visited the Mormon Tabernacle. Where to Go This Coming Week-End  
By DEDE WELCH,

Secretary Dixon Branch Chicago Motor Club

Labor Day week-end, not so far off now, is beginning to bring its annual quota of inquiries for trips just a little longer than the usual week-end. It's not too late to be making arrangements for your Labor Day week-end but you'd better hurry if you want to be sure of obtaining accommodations.

One of the favorites for this year is Saugatuck located on U.S. 31 in West Michigan on the shores of the Kalamazoo River and Lake Michigan. You can have any kind of accommodations you desire and at the price you have set in your vacation budget.

Hiking in the sand dunes of Lake Michigan in and near Saugatuck has furnished hours of pleasure for many visitors. Your still camera or your movie can catch many a beautiful scene in the Great Dune County. Many bridge paths through the woods beckon to the equestrian and the horses and equipment are the best. There are good tennis and shuffleboard courts and all sorts of players to give you most any kind of competition whether you are an expert or a beginner.

The Pavilion, situated right at the water's edge on Lake Kalamazoo, is the finest between New York and Chicago. It is the social gathering place for old and young. Radio-famous orchestras furnish the finest dance music every night through the season. The Pavilion is a brilliant place with over 5000 lights illuminating the glass-like surface of the dance floor. Besides dancing at the Pavilion the building contains a theatre where all the latest sound pictures are shown. This is truly a delightful place, drawing visitors from the entire countryside.

Passenger boats make daily trips over the Kalamazoo River. This twenty-five mile ride through the Water Gardens is something you will not want to miss during your stay in Saugatuck. There are two fine courses — Liberty course of nine holes, and West Shore Golf course of eighteen holes. Both of these courses are available to the public and can be conveniently reached from Saugatuck. Nominal green fees. Several other good courses are within easy reach with an automobile from Saugatuck.

In addition to being a playground, Saugatuck is an art center and attracts many artists every year to paint, sketch or photograph the beautiful scenes of the nearby country. A number of world-famous artists make their home here.

The Chicago Motor Club recommends taking route No. 12 from Chicago to St. Joseph and route No. 31 from St. Joseph to Saugatuck. This is the new Dunes Relief Highway extending from Gary to the Michigan line and is a beautiful road on which to enter the Playground of the Nation. It is a four-lane concrete road smooth and fast. North from Benton Harbor the new million dollar scenic drive leads through the lower dunes and the scenery along this route is truly beautiful. This super-highway leads the visitor right into the great playground that is Saugatuck. The mileage from Dixon to Saugatuck is 234.

The roads are in good condition and Labor Day week-end would be a good time to go—but be sure and make your reservations ahead if you intend to stay at hotels, because they will undoubtedly be busy.

## Poet's Corner

BROKEN VESSELS  
Sometimes in bitterness I feel,  
The way has been so hard.  
Yet God did His Grace reveal,  
From Him, I was not barred.

The grace of God is still unchanged  
But vessels are so frail.  
His spirit cannot work arranged  
To suit man's own detail.

God's Holy spirit saved from sin  
In far off heathen lands.  
He changed the savage noise and din  
To songs of christian bands.

If vessels of His Grace were built  
To stand against the foe  
And live a separated life,  
How well His grace would flow.

Could to strangers we be friends  
And never know a fear  
That perhaps their poor way wends  
To leave us with a tear.

We think our own way is the best.  
We cannot trust the Lord.  
Lest was pass a severe test  
With nothing in our horde.

Yet God gives to us liberally  
Of joys beyond compare.  
We think of them so trivially  
And fail His love to share.

When heat of sun would scorch us  
And refreshing rains don't fall,  
Our efforts are but so much fuss  
Until on God we call.

How long His patience will endure  
With man's foul selfish ways,  
Who do not God's great love insure  
To keep them thru their days.

Love and grace flow freely  
From fountains up on high.  
Like broken vessels really,  
We hold but scant supply.
